

Jujubee (Boroi) Weather Dataset

BAMIS Corrected - Bangladesh

Ground truth: BAMIS regional Jujubee (Boroi) crop-weather calendars.

Original workbook contained repeated synthetic-looking regional/district patterns that do not match BAMIS.

Corrected dataset: 160 rows, 5 source regions, 32 source weeks per region.

No synthetic or interpolated values were added.

Jujubee (Boroi): Barishal

Verification Audit

Ground truth:	Official BAMIS Jujubee (Boroi) regional crop-weather calendars from supplied Drive PDFs.
Original workbook rows:	216 rows across 8 regions/district names and 27 weeks per region.
Major mismatch:	Original workbook uses synthetic-looking repeated patterns and unsupported district-level regions such as Natore, Satkhira, Cumilla, Gazipur, etc., while BAMIS source is
Corrected coverage:	160 rows = 5 BAMIS regions x 32 source weeks.
Regions included:	Barishal, Chattogram, Dhaka, Khulna, Rajshahi.
Correction method:	Rebuilt directly from regional PDF weather rows: rainfall, temperature, RH, sunshine, wind direction and wind speed.
Synthetic/interpolated values:	None added.
Cultivation report:	Original cultivation sheet not used to overwrite BAMIS regional pest/disease guidance; source PDFs remain authoritative.
